

The Peace Officers Research Association of California (PORAC) evaluates candidates and issues each election cycle and votes to support or oppose initiatives and to endorse candidates or incumbents in the Legislature. We often conduct personal interviews.

In order to assist you in making your decision in the upcoming election, we would like to share with you our assessment on which candidates seem best suited to support us on law-and-order issues as well as issues relating to the health and welfare of our members and their families. We realize that you have your own views on candidates and/or incumbents, and we respect that. However, we wanted to share our information and conclusions to assist you in making an informed decision.

There are 80 Assemblymembers who are up for election every two years, and 40 State Senators, but only half of them are up for election every two years. Even-numbered districts are up this year; odd-numbered districts will be up in 2020. If you are unsure as to which California legislators represent your area, please visit: findyourrep.legislature.ca.gov.
